

Software Development Engineer

Kroll Computer Systems is the industry leader in the development and implementation of pharmacy software solutions in Canada. We have 50 young, vibrant employees, and are looking to expand on the great development team that we currently have in our Toronto office.

We are looking for strong **software engineers** who are passionate about learning new technologies and want to join Kroll's development team. Our special projects are leading edge, use the latest development tools and technologies, and our solutions are tailor-made to meet our customers' needs. These projects will keep you interested, and challenge you to further your skills in software development.

With us, you will learn to use the latest development tools and libraries, such as:

- Visual Studio .NET 2008 (mostly VB.NET but some C# and ASP.NET)
- SQL Server 2005/2008
- Delphi
- NUnit, Rhino Mocks and Castle Windsor
- Subversion
- Cruise Control .NET

We are prepared to invest in your skills so that you can actively contribute in a comfortable and productive group setting. Our development cycle is agile, so you will be able to see your work in production shortly after completing it.

We need you to have demonstrated experience on real projects in the following areas:

- Object-oriented programming including design patterns
- Experience developing with a non-memory-managed language, such as C++ or Delphi
- SQL queries using Microsoft SQL Server, MySQL, Oracle or DB2

Other qualifications the successful applicant must possess include:

- Strong command of the English language
- Strong background using Microsoft Windows operating systems
- Strong debugging skills and the ability to think critically in order to write effective code
- The ability to work independently and as a member of a development team
- General awareness of current technologies
- A positive and professional attitude

This is a full-time permanent Monday-to-Friday position in our Don Mills, Ontario office. We invite you to send us your resume as soon as possible. Tell us in your cover letter who would win in a fight and why: the American Alligator or the Burmese python. Don't miss out on being a part of something special. If you want to work off-site or from home, this is not the job for you.

Visit our website at www.kroll.ca and email your cover letter and resume to HR@kroll.ca.
