Intent

This policy is intended to meet the requirements of Accessibility Standards for Customer Service, Ontario Regulation 429/07 under the Accessibility for Ontarians with Disabilities Act, 2005, and applies to the provision of goods and services to the public or other third parties, not to the goods themselves.

All goods and services provided by Kroll Computer Systems Inc. shall follow the principles of dignity, independence, integration and equal opportunity.

Scope

This policy applies to all employees of Kroll Computer Systems Inc. at all times and without exception.

Kroll Computer Systems Inc. understands that not all staff members employed by the organization will be subject to the legal ramifications of Ontario’s Accessibility Standards due to their geographic location and employment outside of the province of Ontario. Nonetheless all employees of the organization shall be subject to the principles and requirements of this policy as Kroll Computer Systems Inc. endeavours to treat all of its clients equitably regardless of geographic location.

A. The Provision of Goods and Services to Persons with Disabilities

Kroll Computer Systems Inc. will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- ensuring that all customers receive the same value and quality;
- allowing customers with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- using alternative methods when possible to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- taking into account individual needs when providing goods and services; and
- communicating in a manner that takes into account the customer's disability.

B. Assistive Devices

Customer’s own assistive device(s):

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Kroll Computer Systems Inc.

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer.

C. Guide Dogs, Service Animals and Service Dogs

A customer with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. “No pet” policies do not apply to guide dogs, service animals and/or service dogs.

Exclusion Guidelines:

If a guide dog, service animal or service dog is excluded by law (see applicable laws below), Kroll Computer Systems Inc. will offer alternative methods to enable the person with a disability to access goods and services, when possible, for example, securing the animal in a safe location and offering the guidance of an employee.

Applicable Laws:
**Dog Owners’ Liability Act, Ontario:** If there is a conflict between a provision of this Act or of a regulation under this or any other Act relating to banned breeds (such as pitbulls) and a provision of a by-law passed by a municipality relating to these breeds, the provision that is more restrictive in relation to controls or bans on these breeds prevails.

**Recognizing a Guide Dog, Service Dog and/or Service Animal:**

If it is not readily apparent that the animal is being used by the customer for reasons relating to his or her disability, Kroll Computer Systems Inc. may request verification from the customer. Verification may include:

- a letter from a physician or nurse confirming that the person requires the animal for reasons related to the disability;
- a valid identification card signed by the Attorney General of Canada; or,
- a certificate of training from a recognized guide dog or service animal training school.

**Care and Control of the Animal:**

The customer that is accompanied by a guide dog, service dog and/or service animal is responsible for maintaining care and control of the animal at all time.

**Allergies:**

If a health and safety concern presents itself for example in the form of a severe allergy to the animal, Kroll Computer Systems Inc. will make all reasonable efforts to meet the needs of all individuals.

D. **Support Persons**

If a customer with a disability is accompanied by a support person, Kroll Computer Systems Inc. will ensure that both persons are allowed to enter the premises together and that the customer is not prevented from having access to the support person.

There may be times where seating and availability prevent the customer and support person from sitting beside each other. In these situations Kroll Computer Systems Inc. will make every reasonable attempt to resolve the issue.

In situations where confidential information might be discussed, consent will be obtained from the customer, prior to any conversation where confidential information might be discussed.
